PERSONAL PROFILE

An individual with a design background, adept at crafting visually captivating and user-friendly websites. Proficient in HTML, CSS, and JavaScript, and skilled in leveraging frameworks such as React to build seamless web experiences. I am actively seeking front-end development opportunities to gain practical experience, enhance technical skills, contribute to innovative projects, and drive exceptional user interactions.

KEY SKILLS

- Proficient in CSS3, HTML5, JavaScript.
- React, Bootstrap, GitHub, Git, Figma, and Responsive Web Design.
- Basic understanding of back-end technologies such as NodeJS, MongoDB, Restful API and ExpressJS.
- Strong interest in cloud computing and artificial intelligence.
- Microsoft Office Suite (Word, Excel, PowerPoint, Outlook, Microsoft Teams).
- Meticulous attention to detail, ensuring accurate work.
- Efficiently managing multiple tasks concurrently, maintaining organization and productivity.
- Exhibits adept problem-solving through innovative and analytical thinking.
- Demonstrates strong resilience by adapting positively to challenges and maintaining focus.
- Promotes teamwork through collaborative communication and active contribution.
